HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO SEPTEMBER 21.

Washington News.

WASHINGTON, Sept. 21.—The President telegraphs to General Babcock that he will return at noon to-morrow.

The distillers in some whisky districts have been making overtures to the revenue officers, to the effect that they can make more money by running distilleries according to law, providing all distillers do the same, thus to take the risk of the detection of illicit distilling. They propose to form an association to aid the revenue officers to detect dishonest distillers.

New York News.

NEW YORK, Sept. 21.—The ship *Yosemite* cleared for San Francisco with 1,000 tons ordnance, etc., for Mare Island Navy yard. The *Semiramis* sails soon to take a similar freight.

It is stated that Gen. Cespedes, President of the Cuban Republic, has taken the field in person. Gen. Hormus is made Chief of Staff.

Koopmanschap is now in New York, and has contracted with a Texas land company for the introduction of 5,000 coolies.

Detectives have arrived in search of Myers, the absconding defaulter of the Branch Bank of Quebec. The amount abstracted was two hundred thousand dollars.

Gen. Calvin E. Pratt is nominated for Judge of the Supreme Court. He is of Kings county.

It appears the frauds discovered in the Methodist book concern, consist of the alleged fact that a son of Dr. Porter, one of the agents, has received commissions for the past eight or nine years, averaging not less than seven per cent., for purchasing printing paper for the institution; that is, this agent permitted his son, who is a paper broker, to charge a heavy commission for doing what was the agent's duty to do himself. Report says the purchase on which this commission has been allowed amount to $15,000 per annum. The son also sold paper to the concern at rates which gave him a great profit. Irregularities are reported in the building department. No particulars are known. A rigid investigation is progressing.

William Varley alias Reddy, the blacksmith, was arraigned for trial this morning in the Court of General Sessions. The court room is densely thronged. The complainant Lawrence Graham failing to appear, Reddy was remanded to the city prison.

WAVERLY, N. Y., Sept. 31.—The Coroner's jury in the case of the accident at Athens yesterday returned a verdict of censure on the conductor of the train for disobedience of orders and train despatcher at Tonawanda for sending a fast train a few minutes after a slow one.

NEW YORK, Sept. 21.—The Mutuals of New York beat the National Base Ball Club of Washington to-day, 42 to 16.

President Grant at Wheeling.

WHEELING, (West Va.) Sept. 21.—President Grant and family arrived to-day, and were received by the Mayor and a large number of prominent citizens, and escorted with a band of music, procession, etc., to the hotel.

Good Templars' Convention.

ROCHESTER, Sept. 21.—The Grand Lodge of Good Templars assembled in Corinthian Hall today. About eight hundred delegates were in attendance.

Arrest at Havana.

HAVANA, Sept. 21.—A letter says Henry Koopers, a British subject, for many years connected with the New York *Herald* bureau in Havana, was arrested and confined in the city prison. The cause of the arrest is unknown.

Virginia Affairs.

RICHMOND, Sept. 21.—Governor Walker was inaugurated as provisional Governor to-day, taking the iron-clad oath. Governor Wells turned over the affairs to the new incumbent. There were no ceremonies and no demonstrations, except that a large crowd of white and colored people were present.

Syracuse Dispatch.

SYRACUSE, N. Y., Sept. 21.—There is a serious break this morning in the Erie canal. It broke near Kirkville and about one hundred feet of the embankment was carried away. The flood covered the Central Railroad track temporarily, and stopped travel. It will require several days to repair the break.

Delegates to the Democratic State Convention are arriving. The attendance will probably be large. The indications are that the present State Democratic officers will be renominated.

Richmond Dispatch.

RICHMOND, Sept. 21.—The first appointment of Governor Walker is Captain Cameron, editor of the Petersburg *Index*, as his Secretary. Mr. Cameron was a Confederate officer and one of the first and most determined supporters of the Walker ticket in the late campaign.

New York Democratic Convention.

SYRACUSE, Sept. 22.—Nearly all the delegates to the Democratic State Convention have arrived. It is said Horatio Seymour will not participate in the proceedings. Gen. Slocum is mentioned as temporary President, but Lieut. Gov. Beach will be permanent President. The platform will be rather conservative and will not go as far as the Ohio Democratic platform. The leading points will be a demand for the restoration of the Southern States to the Union, general amnesty, fulfillment of obligations of the contract with regard to U. S. bonds, opposition to the Fifteenth Amendment, and opposition to the amended State Constitution, except the judiciary article. There is general good feeling among the delegates, and a larger share of confidence witnessed than at any Democratic Convention for years.

Maine Election.

AUGUSTA, Me., Sept. 21.—The Senate stands 28 Republicans to 3 Democrats, a Democratic gain of 1. The House stands Republican 118; Democrats 34. Four districts to hear from. Last year House stood 121 Republicans, 31 Democrats.

Sickles and Spain.

NEW YORK, Sept. 21.—A Washington special says the Government repudiates Sickles' action as exceeding his instructions and pledges itself to censure him.

Races at Cincinnati.

CINCINNATI, Sept. 21.—The first day of Buckeye races for $3,000, mile heats, 2 in 3, was won by Hersog, second and third heats—time 1:43¾, 1:44¾, 1:44¾. The club purse of $500, for two mile heats, was won by Crossland—time 3:41 and 3:37.

New Orleans Dispatch.

NEW ORLEANS, Sept. 21.—In the Jefferson City Common Council last night articles of impeachment were preferred against Mayor Leach for alleged speculations. The Mayor has been suspended and his trial will be commenced to-morrow.

BY ATLANTIC CABLE.

PARIS, Sept. 20.—Rumors are current that Prussia is about to annex the Grand Duchy of Baden.

PARIS, Sept. 21.—The papers publish a letter from Father Hyacinth addressed to a Father in his Order at Rome, announcing that he abandons his Convent and ceases henceforth to preach in the Church of Notre Dame at Paris. As the reason for this step, he declares he cannot obey the orders of the Holy See. He protests before the Pope and Council against the doctrines and practices of the Romish Church, which are not in accordance with the principles of Christianity.

The bodies of six murdered persons (a woman and five children) have been found in a field near Paris. The police have discovered no traces of the assassins.

Prince Metternich was received by the Emperor yesterday.

Baron Beust has not yet arrived.

Minister Burlingame, of the Chinese Embassy, leaves for Stockholm to-morrow. They propose to return in six weeks, when they go to Berlin.

HAGUE, Sept. 21.—The session of the States General was opened to-day by a speech from the throne. The foreign relations of the Kingdom were declared satisfactory. Among other subjects the Legislative reform for the Government of the Colonies was proposed and the removal of all restrictions upon emigration to Guiana.

MADRID, Sept. 21.—The journals of this city are still violent against the presumed unfriendliness of the American government. Some of them urge the immediate declaration of war, if Cubans are recognized as belligerents. The Ministry, after discussing the propriety of returning Sickles' note unanswered, have decided to postpone their reply until the return of Gen. Prim.

NEW YORK, Sept. 21.—A *Herald* special says: "I am assured from well informed circles of authority that the Governments of England and France have, after diplomatic consultation, come to the conclusion that the *statu quo* of the governmental and executive relations between Turkey and Egypt must be maintained. It has been also agreed between the same two leading powers that there shall be no interference from this side between Spain and the United States, on the subject matter of the Cuban revolution and American diplomacy at Madrid.

LONDON, Sept. 21.—The Paris correspondent of the *Times* writes as follows: The note of the American Minister to Spain with regard to Cuba varies both in argument and conclusion from the diplomatic conventions between the Spanish Government and the Government of the United States. General Sickles' diplomatic experiences are too limited, probably, to be able to rightly estimate the value and effect of his words. He is doubtless much surprised at the excitement they created and it will be difficult for his government to approve them. No pretext exists for recognizing the Cuban insurrection which does not hold a single town or position, and owes its prolongation to the action of the climate on its opponents and to the facilities offered to insurgents in a thinkly peopled country. The writer thinks the United States Senate will do itself credit by refusing to confirm the appointment of a man who has made so bad an appearance in diplomacy.

LONDON Sept. 21.—The Pall Mall *Gazette* reviews the idea of the Chinese policy put forth by J. Ross Browne, late American Minister. It says that the sum of his argument is that the opening of the China market to Christian traders in point of fact is nothing to showing that difficulties between foreigners and the Chinese are merely questions of interpretation. A truer account would be that the former forced the Chinese to grant privileges which the latter not daring to withdraw seek to evade. The extortion of such privileges is a mistake. If an intercourse with China is no better than a series of little wars, we must be content to measure the right to trade with China with her willingness to trade with us.

PARIS, Sept. 21.—Reports from Brazilian sources represent the defeat of Lopez at Azura as a complete route and the struggle ended. The *La Patrie* has different accounts which, while acknowledging that the Paraguayans suffered a reverse, maintains that Lopez is still able and determined to maintain the war. Parhon, Brazilian Minister to Paraguay had returned to Rio Janeiro.

LONDON, Sept. 21.—The Pope has sent a communication to Cardinal Manning in reference to the proposal of Dr. Cummings to appear at the Ecumenical Council. The Pope refers Dr. Cummings to the terms of the letter in invitation addressed to the Protestants, and says he will find it an invitation, not for discussion, but only to profit by an opportunity to return to the church. He says there is no room at the Council for a defense of errors which have already been condemned. The *Times* commenting on this letter says, the decision of Rome on Dr. Cumming's letter is pronounced with unexpected promptness. The Pope must have acquainted himself with the purport of Dr. Cummings letter through the newspapers and replied before its receipt. Dr. Cummings is to be congratulated on the authoritative reply elicited. The Pope speaks plainly, and if the Doctor had considered the claims of the Church he would have seen that there was no room for him in the council.

MADRID, Sept. 21.—A letter to the *Standard* says that Gen. Sickles note intimates that the U. S. Government might under the force of public opinion be compelled to recognize the Cuban insurgents. It reminds the Spanish government of the good faith the United States has hitherto preserved in its respect for international law. Altogether the note is not alarming, but the reticence of the Government in allowing the people to remain in ignorance of its contents justifies the violent articles which have appeared in the Spanish papers.

The *Epoca* says Gen. Sickles has withdrawn his note, but the statement is generally discredited. The Republican journals are agitating in favor of a plebescitum. There was a grand popular demonstration in honor of Castillar, the Republican orator of the Cortes, at Saragossa yesterday.

Yreka Dispatch.

YREKA, Sept. 22.—Mr. King, who has just arrived from Surprise Valley, reports some excitement in that valley concerning Indians who appear to be intent on hostility. Captain Putman, of Fort Bidwell, it seems, imprisoned some seven or eight Indians last July, for the purpose of endeavoring to make them tell the guilty murderers of Partridge and another man who were killed about that time. The prisoners were dissatisfied with their imprisonment and one of them came very near killing an officer with a knife that had been given him by other Indians. Just before Mr. King left, a party of thirty Indians rode up to the fort and gave the Captain ten days to liberate the prisoners, or they would take them by force. There are some sixty or seventy Indians in the valley, who have no squaws or children about, which looks like fight. They sometimes visit houses and finding no man about, make the women furnish them with food to eat. The settlers are anxious to exterminate the whole band if the military authorities will give their permission. Captain Putman being a new man is rather backward about commencing a war upon them without orders from headquarters, for fear of creating a general disturbance.

There was over a week's rain in Del Norte during the last month. About three-fourths of the wheat and oats is nearly ruined. Very little was threshed and housed. None of the wheat exposed to the storm will be fit for flour. Fogs have followed the rain so that the destruction has not ceased.

POLITICAL.

The Dent Convention in Mississippi, whose ticket the Mississippi Democracy all support, nominated Thomas Sinclair, a negro, for Secretary of State. How does that suit the Oregon Democracy?

The Southern Democracy are decidedly down on Mr. A. Johnson. The Richmond *Whig* calls him "the very quintessence of malignity," and the Augusta *Constitutionalist* protests against the notion that he represents Southern [illegible] in any way whatever.

It is not all the Southern Democracy who are incapable of taking a practical view of things. More than one of their journals in Tennessee are now insisting upon the maintenance of colored suffrage, not only as required by good faith, but because the State would thereby gain two members of Cong.

The Nashville *Press & Times* calls upon the Press of Tennessee to join, without distinction of party, in urging the ratification of the Fifteenth [illegible]. It says that the amendment can affect Northern States only; that Tennessee has adopted colored suffrage of her own accord, and that she has everything to gain and nothing to lose by the ratification.

Gen. Longstreet has written a letter in which he alludes to the estimate in which he is held by old friends. He says that the good of the country is what he had at heart, and claims that while he is politically damned, Virginia is commended for adopting the very [illegible] the very line of action which he two years ago saw and stated was in the way of the inexorable logic of events.

The New Haven *Palladium* observes that it is amusing to notice that while the Pacific coast Democrats are making hostility to, and exclusion of, the Chinese a principal plank in their platforms, their Eastern and Southern brethren are professing the greatest affection for the pig-tail gentry, and so orthodox a Democrat as the Hon. James Brooks lavishes his eloquence in showing the benefits we are to derive from an influx of Mongols.

The New York *Times* of the 10th inst. states, a dispatch has been received from Belmont, who is now in Europe, condemning the effort now in progress to deprive him of his place as Chairman of the National Executive Committee. Mr. Belmont is reported to counsel his friends not to yield to the pressure, and says he expects to be back in New York in time to checkmate the [illegible], should it seek to take form and substance at the approaching State Convention.

A letter from Chief Justice Chase is published in which he says he will not talk politics; that when he was younger and thought that if largely trusted by the people he could do good service to the country, he should have been glad to have been so trusted. Now that he is older he is not at all satisfied that if in a higher place he could do any better than those now exercising executive functions. He is now content to let aspirations alone and his hopes are in others. He is amused to hear of Chase movements, and does not believe there are any.

Governor Senter of Tennessee says he has no doubt that that State will ratify the fifteenth amendment. President Grant in a recent interview with Brownlow denied the report that he intended to remove federal officers at the suggestion of General Stokes, stating he recognized Governor Senter to be a republican, and would do so until he had occasion to change his opinion; that he desired to harmonize the Republican party in Tennessee and elsewhere; that a wholesale removal of officers would have the effect of embittering and driving away friends, and that he [illegible] to tell General Stokes so.

The New York *Citizen*, a Democratic organ, advertises in the following terms, the necessity of having a new set of principles for its party: "We hear nothing as to what are Democratic principles at present. Copperheadism was a failure, and died the death it so richly deserved; the proposal to pay our debt in greenbacks has been repudiated by the nation; the everlasting colored gentleman has acquired all the rights he knows what to do with, and a few more; the women's suffrage movement has not the dignity of a party measure. We cannot undo the irrevocable; it has nothing to offer as an incentive to persistence. Cannot somebody find us a few new principles?"

THE WEST.

A company has been organized in San Francisco with a capital of $300,000 to manufacture sewing machines and sewing machine needles.

The San Francisco correspondent of the Louisville *Courier-Journal*, says the new State Capitol at Sacramento will be the largest and finest in the United States.

The San Francisco *Bulletin* argues that the high prices of labor is bringing things to a stand-still in California, and that, as the consequence of this and the accessibility of the cheaper labor and cheaper products of the other sections of the country, which are brought by the Pacific Railroad, its prices must decline.

A correspondent of the San Francisco *Call* says that fifty thousand Chinamen in California save, by their industry and frugality, one-half of their earnings, and send it to China, and thus take the capital out of California. The Sacramento *Record* thinks the white people of California ought to take a lesson from such a result of industry and frugality, and, by saving half of their earnings, keep the capital in the State.

The Daily Oregonian.

THURSDAY MORNING, SEPT. 23, 1869

Virginia—No action yet taken.
West Virginia—Ratified March 3, 1869.
Wisconsin—Ratified March 5, 1869

This list specifies nineteen States as having fully ratified the article Nine more are required. Several of these will be had very soon Vermont has just held an election, and will ratify in October In Alabama the Legislature is largely Republican in both branches, and will meet, by adjournment in November. The Legislatures of Iowa and Minnesota, certain to be Republican by three or four to one, will meet in January. Rhode Island will complete her approval in November. A Republican Legislature has just been elected in Nebraska, which will meet, we believe, in December. Virginia Mississippi and Texas are certain to ratify the article, for they are required to do so to obtain representation in Congress. The Legislature of Virginia will meet in a few days, and will ratify at once This enumeration of States makes the nine required to complete the ratification They will all act, in the premises before the end of January next Besides, Ohio is relied on with much confidence, and many Republicans, including Gov. Senter, assert that Tennessee will act favorably upon the article But counting both Ohio and Tennessee against the amendment it will still carry. Twenty-eight States may be positively relied on, and there is a chance for two or three more Georgia, it is believed by many, will rescind her former action, and ratify the amendment.

Our readers will now see precisely how the article stands. Counting only the States which are sure, there are twenty-eight for the amendment There seems to be no reason whatever to doubt that the whole matter will be settled before the next Legislature of Oregon assembles. The Chinese ghost that is now stalking abroad among the Democracy of Oregon and frightening them out of their wits, will vanish before our next election, and cease to squeak and gibber in Democratic mass meetings and in the editorial rooms of the *Herald*, *Press*, *Democrat* and *Guard*.

Badly Sold

The editor of the *Herald* is very happy about a report which has reached him, to the effect that Gov. Hoffman of New York refuses to transmit to Washington a certified copy of the act of the Legislature of that State ratifying the fifteenth amendment. The Legislature did not intrust him to do this, and the *Herald* sees, in this omission a mistake which destroys the validity of the ratification. Now we beg to tell our neighbor, who has written a column article on this subject, that it would make no difference whether the Governor should certify to the fact of ratification or not, and in the next place that he *has* certified to it and sent the document to Washington In the San Francisco *Alta* of the 15th inst, the following dispatch appears :

CHICAGO, Sept. 14.—A Washington special says : Gov. Hoffman has transmitted to the State Department the official ratification of the Fifteenth Amendment by New York.

This lets our neighbor out All that fine writing about the next Legislature of New York taking new action on the amendment and rejecting it, comes to naught. But this is the fate of most of writing in that paper.

In General.

The San Francisco *Examiner*, (Democratic) says that one of the causes of the defeat of McCoppin for Mayor of that city was the antipathy that exists between the Germans and Irish The former were jealous of the influence and promotion which the latter were obtaining in the party.

The minutes of the Annual Conference of the M. E. Church, recently held at Eugene City, are officially published The material portions have already been given in our columns Appended to the minutes are some excellent reports by committees, among which we note that on Education, on Sunday Schools, on Bible Cause, and on Condition of Indians.

Gen Rosecrans' lesson to the Democracy, as given in his recent letter, is forcibly described by a contemporary in these words "He slaps Pendleton in the mouth for preaching repudiation, boots Vallandigham out of the party for his secession sympathies, spurns Casserly from his presence as a narrow-minded bigot on the question of inferior races, and rattles among the Democratic crockery worse than a bull in a China shop.

Eastern journals are not yet done with the international boat race The New York *World* enters into a calculation to discover from the curvature of the Thames between Putney and Mortlake where the recent boat race occurred, the distance rowed by the Harvard and Oxford crews, and concludes that the distance of the former was 166½ feet the greater. According to the *World* this exceeds the distance by which the Harvards were beaten

An Olympia paper tells of a cranberry marsh on the Snohomish river in Washington Territory, which covers more than two thousand acres and on which perhaps one hundred thousand bushels of cranberries grow annually The Indians gather and sell considerable quantities of them every year, but almost the entire crop is allowed to waste.

Recently discovered letters from Sir Isaac Newton give his history of the discovery of gravitation. They say, however, nothing about the world-famed apple, and this story also dissolves with other historical myths "into thin air."

The Democratic Puzzle

The Boston *Journal* 7th instant has the following sensible editorial

There is now going on within the Democratic party a contest for supremacy not unlike that which the old poets and painters used to be fond of delineating as raging between the good and bad powers for the possession of a young man's soul Not that the Democratic party happens to be in a yet guileless condition of mind or that absolutely good influences are at work for its control, but it has the alternative of reforming in some measure its past courses or of going on from bad to worse while the attempts made for its improvement are good for Democratic ones John Quincy Adams for instance tenders very good advice when he urges his Democratic brethren to give over their opposition to the reconstruction system of Congress, on the ground, obviously that the Republican policy in this respect has vindicated itself to the satisfaction of the country and must stand, making all Democratic efforts to assail and undo it ineffectual useless and absurd

Answering to this light from the East comes a ray of good sense from the West in the shape of Gen Rosecrans letter to the Ohio Democracy, written after consultation, it appears with Gov Haight, the rising man of the Pacific coast section of the country Rosecrans also is not satisfied with the position of his political brethren He tells them they ought to rally to the support of the National Treasury "The Democratic party of the United States,' says he "ought to hold high the banner of universal freedom, impartial justice and equality before the law of all who live beneath the flag of our country" Here we have the bright side of the subject What such men as Adams and Rosecrans have the boldness to say, thousands of humbler Democrats in all parts of the country earnestly feel, and would sustain by their votes if the issue should present itself

The majority of the Democratic leaders however, take no such creditable stand A qualified repudiationist is nominated to take the place offered to Rosecrans in Ohio, a politician who differs still more widely from the latter on the question of equal rights Repudiation is openly avowed by the leaders who have recently won the Democratic victory in Tennessee. Everywhere in the North, too, the great body of the Democratic party stands desperately arrayed against the ratification of the Fifteenth Amendment. In the South, if we are to believe a prominent organ of the party, the Mobile *Tribune* "The true Democrat believes that the reconstruction laws ought to be overthrown at the point of the Federal bayonet, if necessary, and that the negro should be deprived of the right of suffrage illegally conferred upon him '

Such are the antagonistic forces now contending for the control of the Democratic party The struggle has certainly got to work itself out with great rapidity in order to bring the party into line either on the one policy or the other, before the contest for the next Presidency arrives There are those who speculate upon a split, leaving the Republicans the privilege of walking over the course with ease. If past instances afford any guide for the future, it would be the most natural to conclude that the Democracy will shillyshally till it is too late, when the old Bourbon leaders, supported by the rank and file of the hard shells will switch the party on to the wrong track as usual and conduct them once more to a certain defeat

Changes in the Earth's Motion.

Capt Ericsson recently published a very ingenious essay upon the change in the velocity of the earth's revolution. He developed skillfully his theory that the human race is helping to retard the earth by raising material in the shape of clay, stone, coal and iron to the surface, and increasing the distance of the material from the earth's centre, thus checking the earth's velocity, The Detroit *Post* thinks Ericsson overlooked one very important element in the forces which tend to produce this change. That paper says .

He apparently forgot, at least he did not mention, the still greater effect which another agency produces by changing internal matter to external—an agency in comparison with which man is a pigmy, and from which he flees in terror and shudders in affright as he contemplates it, We refer, of course, to volcanoes, which, with immeasurable power, throw billions of tons of matter from a depth far below all mines and quarries, and spread it far and wide over the surface of the earth. When the volcano of Mauna Loa in the Sandwich Island is in active operation, it discharges a stream of lava forty-five miles long, two miles wide and sixteen feet deep The material of which this stream is composed weighs over three billions of tons, and as the volcano is sometimes in active operation for months, and its stream flows at the rate of eight or ten miles an hour, the amount of matter removed from the depths millions of feet below the earth's surface, and used in building up huge and massive mountains, dwarfs the slow accumulations of the human race into nothingness, and makes any puny effect it may exert upon the "planets as they roll," a weak and feeble gesture of infancy, compared with the tornado and the whirlwind Multiply the one volcano, whose effects we have described, by the 900 which dot the earth's surface, and have at one time or another been in operation, and it can readily be seen that, the interference of man with the movements of the earth in its orbit, is but an idle breath, compared to nature when she gives vent to her energies and plays with metal and rock and rock and clay, as boys play with pebbles and mud in the street

Butler's Article on the Byron Scandal.

The Byron scandal has brought a formidable disputant into the field, in the person of Gen B F. Butler In a long article published in the Boston *Journal* he submits the testimony furnished by Mrs Stowe to the tests of legal analysis, and concludes that the evidence furnished has not sufficient foundation to establish its truth The article is so long that we can do no more than give its concluding paragraph :

Upon review of the whole matter, in the light of all the evidence of cotemporaneous facts, of the suppression of all documentary evidence by the wife, of the extraordinary manner in which this story is given to the public, it is no more consonant with human reason to conclude that the story of Lady Byron, if we have it correctly detailed to us, was a delusion or a mistake than that this horrible crime in two persons has been committed and remained unrevealed, except to a select few until this day We may admit that Lady Byron herself believed this story We may admit, without scruple that Mrs Stowe believes it, but Lady Byron may have believed upon very insufficient evidence, and Mrs. Stowe evidently has taken her belief for the proof of the fact without the slightest examination of the grounds of that statement But it may be asked, what motive could Lady Byron have for putting forward this story ? Mrs Stowe, in apologizing for her, feels that there is a necessity for some explanation for the manner in which and the causes for which Lady Byron separated from her husband The world has felt that up to to-day no ousing him of the ordinary infidelities of a husband would not be sufficient She took him with those, she lived with him with those ; she invited him to her bed and caused her mother to indorse the invitation after learning them all In the language of the law she condoned all these May she not have felt that no other excuse was left her except the one now so unfortunately and we may hope—with at an unkind thought toward her—so unfortunately put forward ? But we are not required to find motives we are dealing only with the facts—and the evidence to sustain them

Excuse me for troubling you said a gentleman one day to a noted philanthropist but there is in your neighborhood a poor woman in the last extremity of misery If she has not the necessary sum to pay her rent to day she will be turned out into the street The sum needed is twenty dollars " The philanthropist took out the needed sum from his pocket and asked the woman's address You can give it to me he replied, taking the money and putting it in his pocket ' I am her landlord Here is the receipt for the rent How joyful she will be when you give it to her "

A man called ' Old John,' recently died in a London workhouse at the age of 85 He went into the 'house,' a blind orphan at the age of 7, and consequently had lived there 78 years For many years he played the organ and led the singing in the workhouse chapel. He could repeat correctly every word of the Psalms,

LITERARY ITEMS

The latest from Mrs. Stowe is that she intends to treat her critics to " one comprehensive annihilating broadside "

It is now said that at a London club twenty years ago a man hinted the Stowe Byron story and was very nearly expelled for so doing.

We have received from Bancroft & Co San Francisco several of the monthly parts of *Appleton's Journal* In addition to the literary excellence of the *Journal* the cartoons which accompany are highly creditable to American art The publishers, in adopting these art supplements, hit upon a most popular feature which has added greatly to its reputation deservedly earned by the other departments of the *Journal*

AN ENTHUSIAST —The Telegraph Company have an operator at Carlin, Nevada, who was evidently cut for a novelist, or preacher or something beyond transmitting dull stale dispatches At the time of the eclipse, the press had to pay for dispatches telling how ' darkness settled over the earth," how ' the lowing herds wended their way homeward, and the savages betook themselves to their mountain fastnesses," etc. This style might be excusable in a letter, but telegraphing costs something A day or two since a press dispatch from the same place tells of the discovery of a large cave at Mineral Hill, from the roof of which "hung stalactites which reflected light from burning torches a myriad of times, ' ' The magnificent hall adds our romantic friend seemed one of enchantment, echoing every sound like the soft tones of an Æolean harp, and so far away that the ear failed to penetrate the distance' Why don't some of the sagebrush editors take that boy in and give him a fair show? The wires don't afford a fair opportunity for a display of his talents —*Sacramento Bee*

Accordingly the qualities of Or products were uniformly perverted so as to show it at the greatest possible disadvantage. We have seen extra Oregon flour quoted at superfine prices, the exist of "extras" in the market being ignored. When our f finally forced itself into public favor, by its me and the combined influence of California mill merchants and commercial reporters, then dealers, began to buy our flour to brand it with California marks and to sell it in eastern and foreign markets were their own product In this way they selves to a reputation which their own flour could have gained on its own merits and which it did not ta when the trick came to be discovered through shipments from Oregon to those markets Oregon now stands above California in every market both are offered for sale and for months, it has led market in San Francisco This is well known and not be d It is therefore, simply contemp for the Alta to put up quotations as it did on the last as follows FLOUR—A fair and for export house and sales from city mills, of both extra an fine, have been effected without market rates. Sales to day are as follows. 500 bbls extra private 12,000 qr sks fine port, at current rates. At the close we give rates ex lows Choice family and bakers extra, $5 ping extra $4 superfine $4 25@4 Oregon brands, $4 45@4 75 old trick out again On the same day the Oregon extra flour $5 25@5 75 exactly the same as given for San Francisco and Family extra

From a German [illegible] this year, till May 18th, no [illegible] eight hundred Prussian thalers [illegible] to the different committees, a bazaar [illegible] in aid of the sufferers, netted [illegible] the collections at Munich this year [illegible] florins up to July 10th. In short, [illegible] privation of religious life in the [illegible] efforts are made to rescue those miserable [illegible] certain death Still, what are those con[illegible] distributed among such a mass of suf[illegible]

THOSE PLAYED OVER AGAIN—The time was [illegible] when a San Francisco newspaper would [illegible] almost a disgrace to say an honest word [illegible] Accordingly the quotations of Oregon [illegible] uniformly perverted so as to show them [illegible] possible disadvantage We have seen ex[illegible] flour quoted at superfine prices, the existence [illegible] in the market being ignored When our flour, [illegible] forced itself into public favor, by its merits [illegible] combined influence of California millers [illegible] commercial reporters, then California [illegible] began to buy our flour, to brand it with California [illegible] sell it in eastern and foreign markets as if it [illegible] In this way, they helped them [illegible] reputation which their own flour could never [illegible] its own merits, and which it did not sur[illegible] the trick came to be discovered through direct [illegible] from Oregon to those markets Oregon flour [illegible] above California in every market in which [illegible] for sale; and for months it has led the [illegible] San Francisco This is well known and can [illegible] It is, therefore, simply contemptible [illegible] to put up quotations, as it did on the 15th [illegible] "FLOUR—A fair demand for export con[illegible] sales from city mills, of both extra an super[illegible] been effected, without, however changing [illegible] rates. MURDER BY STABBING —About two o clock yesterday afternoon a man named Frank Whitney was fatally stabbed by Jack Harris, an old and widely known resident of this city The affray occurred at the saloon corner of Second and Alder street—the place where a man was shot and killed some months ago The parties met at or near the saloon a few minutes before the stabbing occurred, when Whitney demanded of Harris the payment of a sum of money which he claimed Harris owed him The latter denied owing Whitney and a quarrel ensued during which Harris retreated into the saloon declaring that he wanted nothing to say to Whitney One of the witnesses upon the inquest testified that Whitney finally struck Harris with an umbrella when the latter stabbed him two or three times in the breast with a small knife One of the thrusts penetrated the heart Whitney was assisted out of the house starting to go home but fell near the door and died in a few minutes Harris walked away from the place but was shortly arrested and lodged in the county jail The body of Whitney was conveyed to the Undertaking house of Brelsford & Ewry where Dr [illegible] ppleton held an inquest upon it

THE CIRCUS —A full house again last night at the Great World Circus, notwithstanding the tremendous rain which fell during the greater part of the evening. We have no hesitation in saying that Mr Wilson has the best appointed company and gives the best circus entertainment ever shown in this State The riding is easy graceful and artistic and at the same time daring, while the gymnastic performances are beyond comparison superior to anything of the kind ever shown in this city or State The performances of the lions is alone worth in interest the price of admission At much expense Mr Wilson has fitted up his immense pavilion with comfortable seats capable of accommodating nearly 3 000 people The pavilion withstands the rain so well that the entire audience remained last evening keeping perfectly dry though the rain poured down in torrents To-night, an entire new programme will be presented and a good show may be confidently expected

IMMIGRANT AID ASSOCIATION —Col Drake the Secretary of the Immigrant Aid Association and Labor Exchange, returned by the last steamer from San Francisco, where he had been to study the manner in which the California Association conducted its affairs He comes back with a very good stock of information upon which our Association will, doubtless be soon put in practical operation. An office will be opened in the old Library rooms corner of Stark and First in the course of a few days, when the Labor Exchange branch of the business in hand will be at once opened. We shall then be able, probably to state in detail what is to be done.

RAILROAD MATERIAL —We noticed yesterday on the wharf a lot of material for the east side railroad There was a large number of car wheels a hoisting engine for use in constructing bridges spikes for rails etc etc We learn that five hundred tons of rails are now on the way to this place from San Francisco by the Fulkinburg and Almatia Are there yet any doubting Thomases who don t believe that Ben Holladay is building a rail road?

RECOVERING FROM ILLNESS —The friends of Mr Isaac Rosenfeldt, who has been seriously ill for a long time were delighted to see him again on the street, and evidently much better Isaac had almost an ovation as he went down Front street

News has been received from Mr Sol Hirsch reported quite sick at Idaho city, to the effect that he has passed the crisis of his disease and is recovering

ON A COMMON LEVEL.—The homicide yesterday was the second which has occurred within a short time at the 'den on Alder street We heard some expressions of bitterness yesterday against this place, and no doubt it is bad enough, but we fail to see why the negroes and Chinamen who keep it should be considered any worse than the whites who are frequenters there It strikes us that they are all on a level together

LECTURE.—At Philharmonic Hall, on Friday evening at 8 o'clock, Rev C S. Sprecher will give a lecture for the benefit of the Evangelical Lutheran Church Subject—Agitation, its nature and its uses, with a practical application to the cause of Temperance; Oregon Immigration etc. Prof Sodlack, with assistants, will furnish choice music The friends will please notice the change of time.

SALES OF REAL ESTATE.—Since the 7th inst, fourteen deeds to real estate in this city and county, have been filed for record in the County Clerk's office The considerations paid aggregate about $20 000

USEFUL IMPLEMENT.—We saw yesterday at Williams & Myers, Front street, a very ingenious implement for opening oyster, fruit and other cans It is cheap, convenient and effective.

LARGE FREIGHT —The Moses Taylor brought six hundred and eighty tons of freight and, we hear, was obliged to refuse a lot more which was offered.

RACES.—On the 25th inst there will be several races on S. J. Scott's track, near Wapato Lake There are six entries.

DAILY TRIPS —Jamison will make daily trips between Portland and Hillsboro during the Washington county fair

RISING —The Willamet river is rising At Salem it has risen something more than twelve inches

DEATH OF A MODERN SAMPSON —Captain John W. Russell, died in Franklin county, Kentucky, recently, aged seventy-five years. The Louisville Courier-Journal says, He was famous among western pioneers for his strength and intrepidity He served in the war of 1812, was a member of the State Senate, and an intimate personal and partisan friend of Henry Clay He was for many years a Mississippi steamboat captain The incidents of his force of will and power of command would fill a volume On one occasion, in New Orleans, he had personal rencounter with the pirate Lafitte, and, unarmed, whipped him and ejected him from a ballroom.

On another, while landing at Natchez, a passenger of his boat was robbed by the gang which then infested the portion of the town bordering on the river, and known as "Natchez under the hill" By surrounding with his crew the house in which the robbers took refuge, he passed a cable around it, and under the threat of pulling it, with the inmates, into the river, he compelled restitution of the money, and made himself a terror to the thieves and gamblers who then infested the country towns Of his great strength, persons who knew him only in his latter years, when enfeebled by age, would have had but little conception, though when in his prime it was known from Pittsburg to New Orleans, he had lifted a shaft weighing 1,647 pounds, and that he had carried entirely across the deck of the boat an anchor of 1,242 pounds weight

TO HEBREW PARENTS—RELIGIOUS INSTRUCTION —Dr Eckman has commenced imparting religious instruction to the children of those parents who may be desirous of committing their children under the (almost paternal) care of a man whose truly religious character and simplicity have ever most extraordinarily attuned his mind to that of simple childhood, and exercised a "magnetic" power over the juveniles brought within his influence which unregenerate minds can never acquire. The instructions will till the new Synagogue will be completed, be given at the Washington Armory Hall, next building to the Portland Library Till then they will be given on the Sabbath and Holy days, after the close of the regular morning service

DR. H. A. BODMAN
HAVING PURCHASED HADFIELD'S EQUALIZER and the Patent Right for Multnomah county, would respectfully inform his friends and the public generally that he is prepared to treat [illegible] fully those Chronic cases on whom all other [illegible] cure have failed.
Having used this Instrument in connection with his former practice for about three months, he is satisfied that it will accomplish all that is claimed for it in curing Chronic D[isease] He does not believe in the system of advertising cases cured, but any number of such may be seen on record at his office, consisting principally of Rheumatism Neuralgia, Paralysis, Curvature of the Spine Nervous Debility, Dyspepsia, Weak Chests, Asthma, Narrow Chests, Weak Lungs, Weak Backs, Weak, Stiff and Rheumatic Limbs, Sprains, [illegible] Epilepsy, Palsy, St. Vitus Dance, Prolapsus Uteri, Obstructed [illegible] tion, with all their [illegible] Impotency and all kinds of weak [illegible] of the Generative Organs Spermatorrhoea confidently cured in from four to six weeks without medicine
He uses other remedies when [illegible] but the Equalizer generally performs the cure without the aid of any medicine whatever. It brings a greater [illegible] of blood and nutrition to all weak parts, thus [illegible] new life and tone, and health, and strength to those parts It breaks up congestion and inflammation by equalizing the circulation throughout every part of the system.
Give it a fair trial and you will be satisfied with the results It has been examined by thousands of physicians of all Schools of Medicine, and there has not been one dissenting voice to the correctness of the principle all acknowledge that it fills a vacuum in the Science of Medicine
